**AUTOMATION AND AI TECH WILL AFFECT A LOT MORE THAN JUST MINIMUM WAGE FAST FOOD JOBS....**

AI SOFTWARE CAN NOW COMB THROUGH AND ANALYZE MILLIONS OF LEGAL DOCUMENTS THAT USED TO TAKE AN ARMY OF LAWYERS AND PARALEGALS.

SELF-DRIVING VEHICLES ARE ON THE HORIZON AND WILL APPEAR ON THE ROADS OVER THE NEXT 10 YEARS. THEY CAN REPLACE TRUCK DRIVERS, PACKAGE AND MAIL DELIVERY COURIERS AND TAXI DRIVERS.

AI SOFTWARE CAN POTENTIALLY DO HALF OF THE WORK IN THE MEDICAL FIELD INCLUDING DIAGNOSIS, ORDERING AND ANALYZING LAB WORK, PRESCRIBING TREATMENTS/MEDICATIONS, MEASURING AND DISPENSING MEDICATION, ANALYZING DRUG INTERACTIONS AND SIDE EFFECTS, CLERICAL WORK AND MORE.

ALREADY HEAVILY AUTOMATED BY ROBOTIC FACTORY WORKERS, ADVANCES IN 3D PRINTING TECHNOLOGY COULD BRING MANUFACTURING TO EVERY DESKTOP. OR GIGANTIC 3D PRINTERS COULD PRINT CONCRETE AND CREATE HOUSES AND BUILDINGS.

PROFESSIONS IN FINANCE, BANKING, AND INSURANCE TOPPED THE LISTS OF OCCUPATIONS LIKELY TO BE REPLACED BY ALGORITHMS.

HOW CAN I -- OR REALLY ALL OF SOCIETY POSSIBLY SURVIVE THIS AI/AUTOMATION REVOLUTION?
